■ SPECIAL EXCHANGE

Yes, Shannon! (Now with a whole team!)

SPECIAL EXCHANGE

Back in March, we ran a survey on this page asking you to tell us your likes and dislikes. Boy, have you delivered! Since then, we've received so many wonderful responses, we feel guilty keeping them all to ourselves. In this Special Exchange, then, we'd like to share a few of your delightful replies. As is evident below, the long-running debate between easy and hard crossword devotees continues. For folks interested in more challenging fare, be sure to pick up an issue of Official Crossword Puzzles, which concentrates on the tougher stuff. 42 of its 50 crosswords are in the hard, expert, and challenger categories!

I love *Special* because it contains such a fantastic array of easy and medium crosswords, Kriss Krosses (my absolute favorites!), Laddergrams, Figgerits, and Cryptoquizzes. When I finish these, I let my husband have a crack at the hard, expert, and challenger crosswords. You know the saying "Variety is the spice of life?" I say, keep publishing the best "spice of life" magazine!
Donna Henry, Alexandria, Virginia

For years and years, I've been a dedicated fan of your publications. I especially love hard, expert, and challenger crosswords, as well as Laddergrams, Anacrostics, Figgerits, Cryptoquizzes, and Kriss Krosses. Diagramlesses, Cross Sums, and Logic Problems, however, I always ignore. Once, I deciphered a cryptogram that read: "The height of conceit is a person who solves a crossword puzzle with a pen." Guess what? I use a pen all the time! When it comes time for experts and challengers, though, I confess, I make sure my pen has an eraser. I keep at these toughies until I've completed them; only rarely — as a last resort — do I look at their answers. In some issues, I find clues in the hards to be more difficult than those in the experts and challengers! Actually, do you offer a magazine of just expert and challenger crosswords? I'd be very excited to see that! Oh, and my trick to make easy ones harder is to limit myself to reading only the Across clues, or only the Down clues.

Shirley Beckman, Halifax, Nova Scotia, Canada
P.S. I love your covers ...and puzzles with themes!

I find the 50 crosswords in *Special* to be far too many. While I don't even bother with easy and medium ones, lately, I've become somewhat frustrated by the hards. You must have been getting complaints about them

being too simple, because the clues are becoming a lot tougher. My suggestion is to add themes, as in the experts, which I usually find to be loads of fun (and often, much more straightforward than hards). Moreover, if you reduced the number of hards, you could add more of the variety puzzles that generally appear only once every several months. For example, I haven't seen Build Score in a long time, and I'd also love to come across Letter Choice more often. On the other hand, I'm not a fan of some features, such as Anagrammar, and I detest straight quizzes like Who, What, Where, When? Oddly, the difficulty level of the 10 Diagramlesses is fine. Sometimes, a challenger Diagramless may be overly complex, but I can generally finish all of them...I wouldn't even mind a few more! Another suggestion, regarding the schedule of upcoming magazines, is to put it on a page other than an answer page. While I really like to know when to expect new publications, I won't look at a calendar on an answer page because I don't want to accidentally catch a glimpse of any solutions. Then, solving's no fun! I don't mind when you include it on the last page with hints; can't you always place it there? One more thing: The pictures on Anacrostics give too much away, so I've taken to cutting them all off as soon as I receive a new issue. Lately, I appreciate that they do seem to be getting a little trickier.

Naomi Goldblum, Jerusalem, Israel

Do you share any of Shirley and Naomi's sentiments? Please, let us know! We also welcome any other questions, comments, or suggestions you may have. Remember, if you prefer to remain anonymous or have only your initials printed, please say so. Letters may be edited for length and clarity. Write, fax, or e-mail us at:

SILLY DILLIES

by L.G. Sims

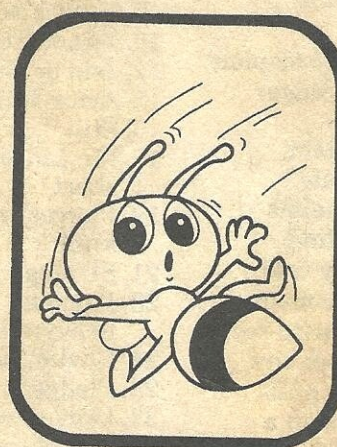

Failure to identify the Silly Dillies below doesn't mean a thing, but you can have fun trying! The drawing is the artist's humorous interpretation of a common word or phrase. For example, a drawing of a sleeping bull would suggest "BULLDOZER." Get the idea?

Answers are on page 126.

Solution is on page 120

68 Dec-2003 CUT AND PASTE and coloring! (all chopped liver!)

You won't need scissors and glue for Cut and Paste, but you will need brains and observation skills! Simply "cut" each letter group below into two and "paste" a letter (which you must determine) between the groups to form two overlapping, related words. For example, if you were given ROBIEST, you would divide it with an N to form ROBINEST, which contains ROBIN and NEST. Our answers are on page 126.

La Republica Dominicana!

*Did you pay, "Bar" yard mom?

** What happened to purple catsup?

PICTURE REBUS

Below is a little truism told in pictures. To read it, express in words what is represented by the illustrations. If a picture is followed by a plus or minus sign, you are to add or subtract those letters from the preceding word. A slashed line indicates the end of one word and the beginning of the next one. Answer is on page 128.

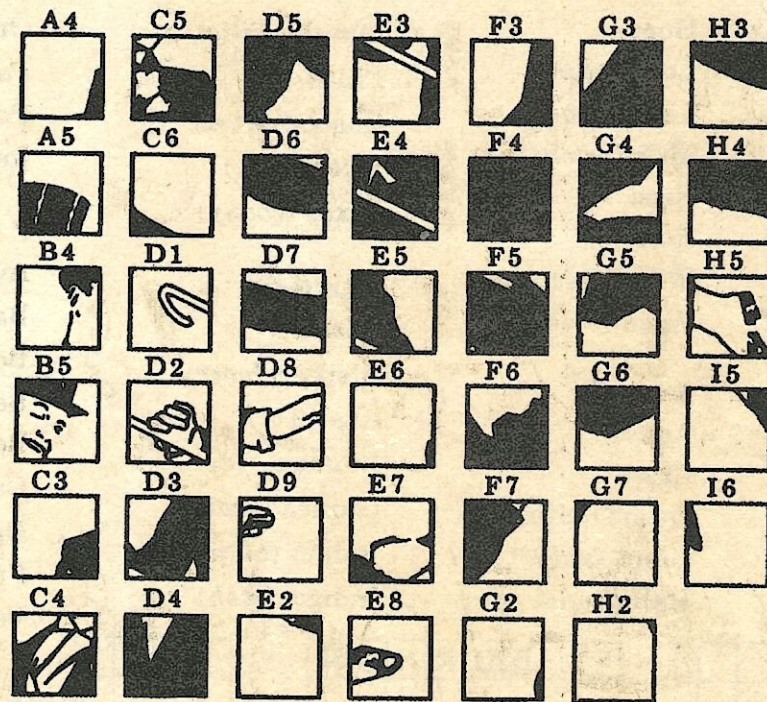

SKILL-O-GRAM

by Gary Maria

Each square contains one part of a complete drawing. Using a pencil or pen, you are to copy exactly what you see into the empty grid. Use the letter-number combinations as a guide, and draw exactly what is in each box into the corresponding box in the grid. Start with A-4, drawing in the box where Row A and Column 4 intersect. Then draw in A-5, B-4, etc., and continue right through to the end. The result will be a finished drawing, as skillfully drawn as if by an artist.

The artist's drawing is shown on page 121.

Laddergrams

by Irene R. Hayes

First, write the word that fits the first definition into space 1. Then drop one letter and rearrange the remaining letters to form the answer to definition 2. Drop one more letter, rearrange, and get the answer to definition 3. Put the first dropped letter into the box to the left of space 1 and the other dropped letter into the box next to space 3. When you have correctly solved the puzzle, the dropped letters on the left and right, when read down, will spell out related words or a phrase.

Solutions are on page 125.

8. _____

TRIANGLE FILL-IN

The answers to the definitions below are all 3-letter words. Each answer is to be put into a triangle of the diagram so that it encircles its corresponding number, but it is up to you to decide whether it should be entered in a clockwise or counterclockwise direction. As a help, where the corners of triangles touch, the letters are the same. The first word, CUB, has been entered to help you get started. Solution is on page 129.

1. Baby bear
2. Addition total
3. Tour vehicle
4. Fifth month
5. Car fuel
6. Floor covering
7. 007, for one
8. Cooking skillet
9. Pester
10. Uncooked
11. Snow runner
12. Crusted pastry
13. Writer's tool
14. Copy
15. Great wonder
16. Lock opener
17. Tell fibs
18. Table support
19. Fence opening
20. Large hatchet
21. IRS concern

Figgerits

Your finished Figgerit will yield a little truism written onto the SOLUTION dashes. First, fill in as many answers to the DEFINITIONS as you can. Then, transfer their letters onto both the SOLUTION dashes and other WORDS dashes with identical numbers, since in each Figgerit, a letter is allowed to have more than one number. For example, the numbers 6 and 9 might both stand for "r." Note: Each Figgerit has a different pattern of number/letter substitutions. Solutions are on page 125.

Word lists are on page 126.

Cryptoquizzes

A Cryptoquiz is a group of related words in a simple substitution code — one set of letters has been substituted for the correct letters of the words in each group. The title and the example of each group will help you identify the words. Look for words that might reveal themselves by their distinctive spelling or by frequently used letters. When you have identified a word, knowing the letters will help you decode the other words in that group, because if A stands for T in one word, it will be the same throughout that group. Each group, though, has a different code.

Answers are on page 126.

1. BAKERY PURCHASES

Example: muffins

LAAQXHY
VXHY
LCVLIQHY
JACNDFCEY
EITEY
WTHIJY
LTCRRHTY
YVAFNHLIHY
DITJ TARRY
YEXLQB WCFY

2. WORDS WITH A "FELINE" BEGINNING

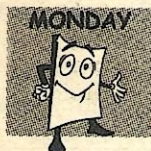

Example: catcher

XSWXSTT
XSWSTFE
XSWSALTW
XSWSKWBFAYQ
XSWQBANTTSB
XSWQEFBG
XSWXYZFBO
XSWQBZSLT
XSWWSNT
XSWSTGKW

3. IT'S ABOUT TIME!

Example: week

KGNNVIIGTK
QVBCQV
WVBPIQ
QCS
SVCH
KGITDV
JCNA BVIDTHS
APTHWBPHV
JPTH
KPIDJ

4. EUROPEAN CAPITALS

Example: Brussels

IYSWYS
LONDON
FYCB
ROME
CVWFTW
MADRID
VQLBSG
ATHENS
HBIMFVWB
BELGRADE
WKHITS
DUBLIN
XVFTG
PARIS
HKJLVFBGQ
BUDAPEST
JYXBSLVMBS
COPENHAGEN
XFYMKB
PRAGUE

5. RED...

Example: ink

FYKKYG
KQJY
TGIZZ
ZYQ
TYBK
FVDOK
OYGGVBD
ZBQJJYG
UVBY
OQVG

6. ALL ABOUT RONALD REAGAN

Example: 40th President

XVBYA VGZEA
AOAMYAL YXBMA
WAGKWA V.X. UZEV
UBW EDBOA
WGJAKQ GK GI
MNOBIGKQBN
XBIA QNQMP
IGKDAK NMYGK
DGJBAE NQL YJ
KNQMV GXQAK

Solution is on page 120

A TO Z FILL-IN

After the words that answer the definitions below are filled into the diagram, you will have used every letter of the alphabet **ONCE** and **ONLY ONCE**. The definitions are listed in alphabetical order according to the first letter of each word you are to fill into the diagram. We have correctly filled in the letters **A** and **Z** and, since you will use each letter of the alphabet only once, it's a good idea to cross off each letter as you use it from the list provided.

Solution is on page 124.

- | | | |
|--------------|---|---------------------------|
| ~~A~~ | N | Gift-wrap decorations |
| B | O | |
| C | P | Electronic office machine |
| D | Q | |
| E | R | "By —!", cry of surprise |
| F | S | |
| G | T | Give temporarily |
| H | U | |
| I | V | Powerful |
| J | W | |
| K | X | Harvests, as apples |
| L | Y | |
| M | Z | Watch-crystal gem |

QUOTATION PUZZLES

In the puzzles below, fit the letters in each column into the boxes directly above them in order to form words. The letters may or may not go into the boxes in the same order in which they are given. It is up to you to decide which letter goes into which box above it. Once a letter is used, cross it off the bottom half of the diagram and do not use it again. A black square indicates the end of a word. When the diagrams have been filled in, you can find the completed quotations by reading across the boxes. Answers are on page 125.

1.

T	U	U	E	T	O	N	I	T	G	R	S	N	I	T	N	T	
G	B	S	A		I	E	S	S	H	L	I	T	G	O	H	G

Uncover more clever quotes in **Collector's Series Quotation Puzzles**. To order, see page 17 or visit our website at www.dellmagazines.com.

CHANGELINGS

Can you change the first word into the second word (in each set below) by changing only one letter at a time? Do not rearrange the order of the letters with each change. Each change must result in a real, everyday word; and words beginning with a capital letter, slang, or obsolete words are not allowed. The number in parentheses indicates the number of changes we used for that Changeling. Our answers are on page 125.

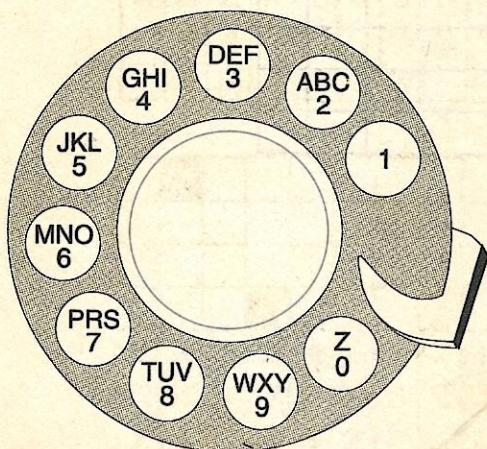

Example: TINY to BIRD (4 changes)
TINY (1) TINs (2) bINS (3) BINd (4) BIrD

- | | |
|---------------------|-----------------------|
| 1. LOUD to TONE (4) | 6. SILK to HOSE (5) |
| 2. YARN to TALE (4) | 7. TROT to EASY (6) |
| 3. SEAS to KELP (4) | 8. WOOD to BEAM (6) |
| 4. DIVE to POOL (5) | 9. BAKED to FOWLS (6) |
| 5. NODS to HEAD (5) | 10. FISH to POND (7) |

Let Collector's Series Changelings be your guide to positive change! See page 17 to order, or visit our website at www.dellmagazines.com.

LETTER, PLEASE

The numbers below stand for certain letters on the telephone dial. You will see that one number may stand for more than one letter — for example, 3 may be D, E, or F. By finding the correct letter for each number in each puzzle below, you will have spelled out a little truism. Answers are on page 128.

A. 8 4 3 2 7 2 4 6 4 7 2 9 6 6 3 3 7 3 8 5 6 7 4 2 6 ;
4 8 7 8 2 7 8 7 9 6 7 5 4 6 4 8 4 3 6 6 6 3 6 8
9 6 8 4 3 8 8 7 4 6 8 4 3 6 6 7 6 4 6 4 2 6 3
3 6 3 7 6 6 8 7 8 6 7 8 6 8 4 5 9 6 8 4 3 8 8 6
8 4 3 6 3 3 4 2 3 .

B. 2 5 8 4 6 8 4 4 7 3 6 7 5 3 6 2 9 3 5 2 8 8 3 7
8 4 3 6 7 3 5 8 3 7 9 4 8 4 8 4 3 4 7 4 7 3 2 8
2 2 8 4 6 6 7 , 8 4 3 7 3 2 7 3 8 7 8 2 5 5 9 8 4 3
7 3 7 8 5 8 6 3 2 4 2 6 2 3 2 6 3 6 6 8
3 3 7 4 4 6 .

LOGIC PROBLEM

1. CUSTOM CLOTHES

by David Champlin

Bored of the generic clothes for sale at the mall, but too unskilled at sewing, five friends recently placed orders at Dellville Custom Clothes, a store that creates unique outfits tailored to each customer's specifications. Each woman ordered a different article of clothing in a different color (including red). From this information and the following clues, can you determine each woman's full name, clothing item, and color, as well as the order in which the women made their requests?

1. Dina (who didn't have a pair of pants made) and Ms. Ito made consecutive requests, in some order.
2. Mary's item was ordered just before Ms. Perry's, and the shirt was ordered at some point before the blue item. Note: Four different items are mentioned in this clue.
3. Ms. Woo's order was made just before the one for the green item, which was made just before the order for the skirt.
4. Teri's request was made at some point before Ms. Nye's, which was made just before the order for the lavender item (which isn't the pants).
5. The skirt wasn't ordered by Ms. Perry.
6. The dress (which is neither Ms. Ito's item nor the lavender item) was ordered at some point before Rachel's article of clothing.
7. The five articles of clothing are the pink one, Amy's, the tank top, Ms. Barr's, and the last one requested.
8. Ms. Ito didn't make the last request.

Solution is on page 127.

If you care to use the chart below in solving this Problem, you do so by entering all information obtained from the clues using, perhaps, an X to indicate a definite "no" and a dot to show a definite "yes." Remember: Once you enter a definite "yes" (dot), place a "no" (X) in all the rest of the boxes in each row and column that contains the dot.

	Barr	Ito	Nye	Perry	Woo	dress	pants	shirt	skirt	tank	blue	green	lav.	pink	red	1st	2nd	3rd	4th	5th

KRISS KROSS 5

ESSAY

The word list for this Kriss Kross consists of an essay about Oregon's Crater Lake. The number of letters for each entry is shown above it, and these words are to be entered into the diagram in the usual manner. If you need help getting started, the entry that goes into the outlined area is listed on page 130.

Solution is on page 124.

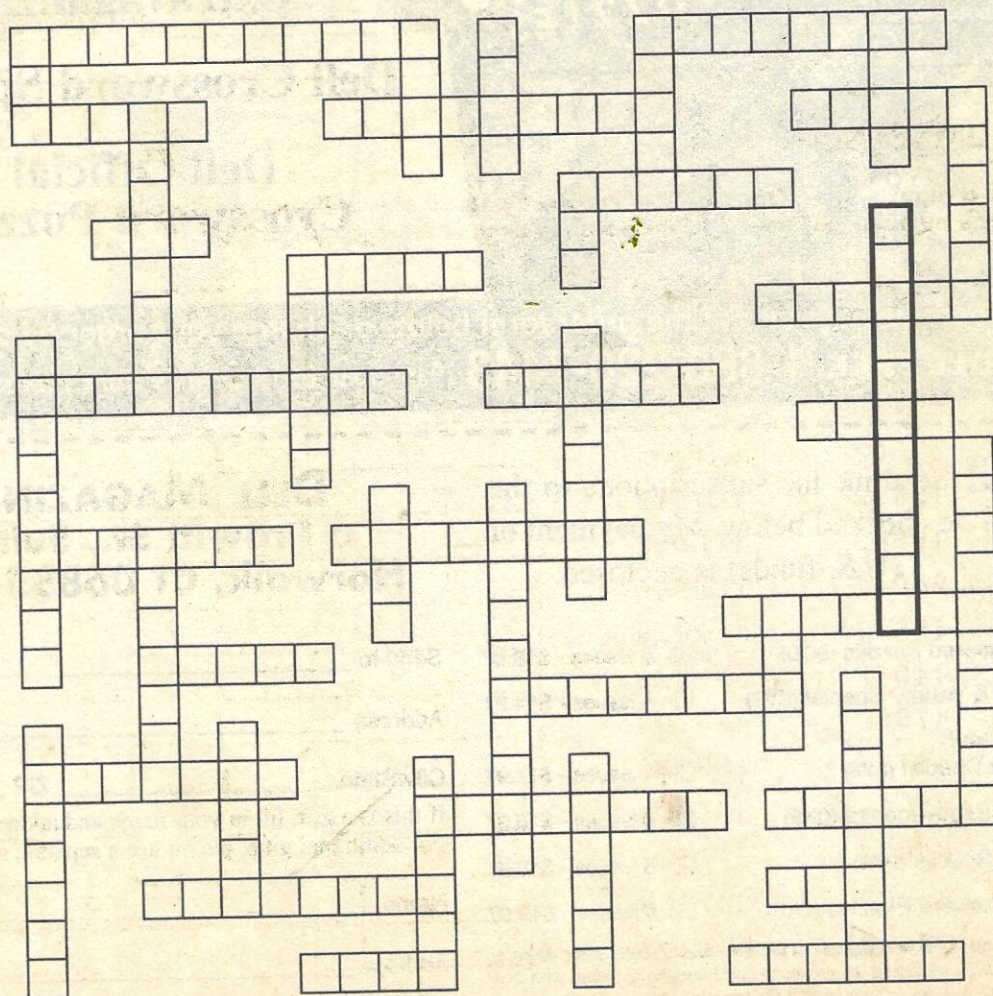

6 4 4 5 5 7 8 8 7 8
Crater Lake lies in the crown of Mount Mazama, an inactive volcano in Oregon.

4 7 6 5 8 6 10 6 3 6 6
This natural wonder is the clearest, bluest, and deepest lake in the United States.

6 6 3 8 4 5 6 3 8 8 4
It lies nearly two thousand feet below the rim and the water is almost that

4 5 10 4 9 11 7 9 5
same depth. It contains only rainwater and snowmelt. No water that might bring

10 7 7 11 3
impurities flows in, and very little seeps out.

HARD 26

Solution is on page 121

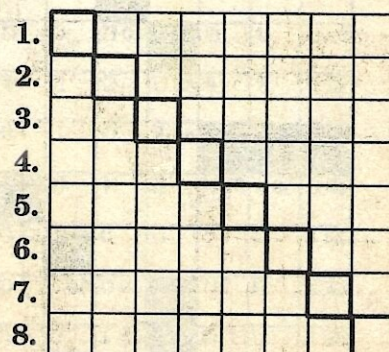

ANAGRAM ANTICS

The odd-looking words below are occupations in anagram form. Unscramble each word and place it in the correspondingly numbered row in the diagram. When you are finished, and if you have anagrammed all the jobs correctly, you can unscramble the letters in the heavily outlined boxes to spell out the occupation of "one who doesn't mind taking orders."

Answer is on page 125.

1. P S E C R O M O
2. S G R T G D U I
3. H E E R R C A P
4. C C I A E N H M
5. E V R N N T O I
6. M U R E R F P E
7. D N C I E A O M
8. Y I I T R C S L

In this special crossword, the puzzle is in a Cryptogram-style code, with definitions (which have been made deliberately tricky) for only the words reading Down to help you along. In each square, a letter appears in the upper right-hand corner; it is the code for the letter that should be written into that square. Thus, if you were to determine that "P" was the correct first letter for the word answering definition 1-Down, you would know that "R" stood for "P" throughout the puzzle, and you would enter "P" whenever "R" appeared. Start by entering as many words from the definitions as you can; then work back and forth, using letter patterns to help decipher the answers to the definitions.

Solution is on page 121.

11. Old Atlanta arena

Solution is on page 121

SWITCH FIVE

Without rearranging the order of the letters, you are to change every letter, one step at a time, so that your five steps will have changed every letter in the word. Each change you make must result in a real word, and once you have changed a letter YOU MAY NOT CHANGE THAT LETTER AGAIN. Use everyday words; proper names, contractions, and foreign, poetic, and archaic words are not allowed. You can change the letters in any order, and may change to a letter which appears in the original word.

Our answers, which may differ from yours, are shown on page 128.

WORD MINE

Form all the 4- and 5-letter words you can by using only the letters in the phrase below. You may use a letter more than once in a word ONLY if it appears more than once in DILL PICKLES. Words beginning with a capital letter, contractions, plurals, and present-tense verbs ending in "s" (such as "likes") are not allowed, and neither are hyphenated, obsolete, slang, poetic, archaic, foreign, and dialect words.

Our list of 38 4-letter words and 15 5-letter words is on page 126.

DILL PICKLES

Collector's Series Word Mine has over 110 fabulous puzzles. Turn to page 17 to order, or visit our website at www.dellmagazines.com.

CRYPTIC CROSSWORD

HARD 33

by Bob Stigger

To solve Cryptic Crosswords, keep this information in mind: 1. Every clue is really two separate and complete shorter clues placed side by side—the fact that it sounds like one sentence when read through is a ploy to disguise where one ends and the other begins. 2. No words have been added to make the clue read better as a sentence except for the occasional “equating” word (such as IS, GETS, TO, etc.) to join the two shorter clues together. 3. One of the two clues is always a straight hint to the answer, and the other clue redefines the same answer in a significantly different way (usually through some sort of word-gaming). 4. Any rearrangement of letters in the word-gaming clue MUST be accompanied by an appropriate indicator word (see below). 5. The word-gaming clue often contains words that become Roman numerals and abbreviations in the answer (such as “five” for V, “east” or “direction” for E, “degree” for BA, etc.). 6. Literalness is the key to solving (“limitless,” for example, may mean “without its first and last letters”). It may sound complex, but every rule is intended to help. Remember, there is no “fat” in a clue; every word has a reason to be there.

Note: The numbers in parentheses indicate how many letters are in each answer. If there are two or more words in an answer, the number of letters in each word will be separated by commas. If the words are hyphenated, the numbers will be hyphenated.

INDICATOR WORDS

ANAGRAMS—mixed, confused, new, strangely, “bananas,” upset, etc.

REVERSALS—Across answers: back, over, west, left, upset, in retrospect, etc. Down answers: up, climbing, building, raised, etc.

CONTAINERS—words “holding” other words: grabs, includes, bites, owns, sandwiches, houses, etc.; words “being held” by words: lives in, interrupts, parts, divides, cuts through, etc.

HOMOPHONES—sounds like, heard, reported, utter, state, aloud, etc.

HIDDEN WORDS—in, part of, masks, concealed by, out of, covers, etc.

LETTERS—first letter of a word: head, capital, initially, top, etc.; last letter: end, back, closer, finally, etc.; center letters: heart, midsection, essentially, inside of, etc.

Solution is on page 121.

Explanations of the definitions are on page 130.

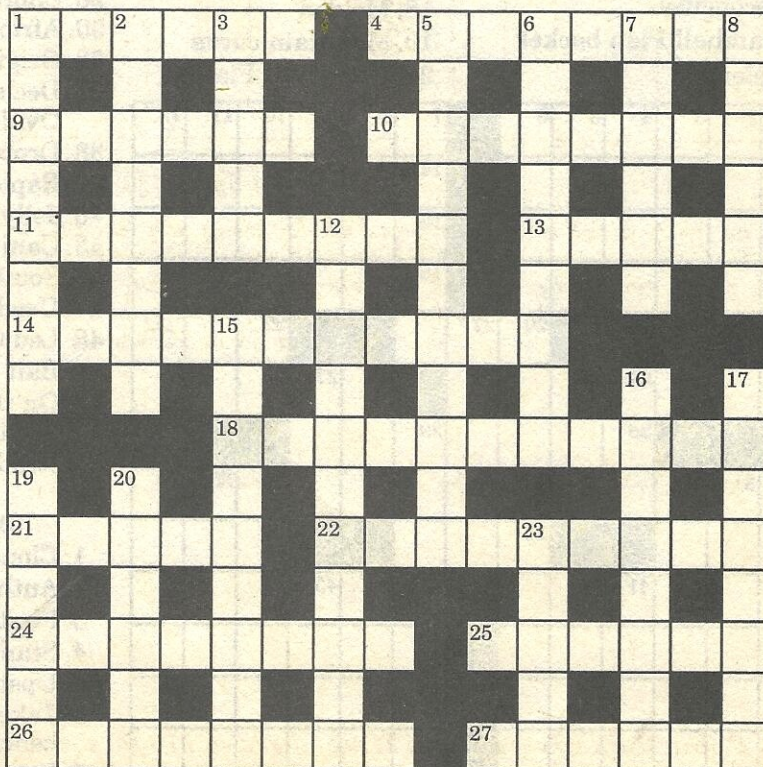

ACROSS

1. Force a mollusk in the mouth (6)
4. Frustrated, the foremost of dermatologists covers up skin problem (8)
9. Discover running back in Wapakoneta college (6)

87. Extinct bird

CODE-A-GRAPH

STEP 1: Start by solving the sentence below that appears in a simple substitution code — another letter of the alphabet has been substituted for the right letter. Look for clues in the coded sentence, such as single-letter words that would be either A or I (see introduction to Cryptograms on page 60 for further solving hints).

STEP 2: Transfer the DECODED letters that have arrows above them into the boxlike spaces provided at the top of the diagram. Write them in consecutive order: That is, as they appear in the decoded sentence. Do not rearrange them and do not skip any letters. **REMEMBER:** Only your decoded letters, NOT the original coded letters, are to be placed in the spaces at the top of the diagram. After you have placed the letters into their spaces, you will use them as a guide in completing a picture in the diagram.

STEP 3: Each letter-number combination next to the diagram represents a dot in the diagram. For example, the first pair represents the dots where column U and row 2 intersect and where column P and row 1 intersect. You are to draw a line between these two dots. When you have finished drawing lines between all the dots indicated by the pairs of letter-number combinations, you will have completed a picture that is hinted at in the coded sentence. You will not be drawing one continuous line, as is the case in many connect-the-dots puzzles. We have entered some lines into the diagram (not indicated by the letter-number combinations) to give you a more complete picture.

The decoded sentence is on page 130.

Solution is on page 129.

LOGIC PROBLEM

2. DANGER-SEEKING DAMES

by Terrie Brockmann

Five adventurous sisters seeking an ultimate adrenaline rush lined up a week's worth of high-charged activities this past summer. While on vacation together, each girl tried a different activity each day, Monday through Friday, and no two did the same thing on the same day. From this information and the clues below, can you determine the activity each girl did on Monday through Friday?

1. Fiona went mountain climbing the day after she went spelunking.
2. Sheila didn't go sky diving the day after she tried motorcycle racing.
3. Renee went to movie stunt school the day before Sheila attended it and the day after Tasha tried it.
4. Fiona didn't go mountain climbing on Thursday.
5. Renee didn't go spelunking on Friday.
6. Kylie didn't go to movie stunt school on Thursday or Friday.
7. Four of the girls went sky diving the day after they tried motorcycle racing.

Solution is on page 127.

The fill-in chart below was found to be most helpful in solving this problem.

	Monday	Tuesday	Wednesday	Thursday	Friday
Fiona					
Kylie					
Renee					
Sheila					
Tasha					

If you wish to learn more about the use of Logic Problem charts and how they can assist you, send for a free leaflet of easy-to-follow instructions, "Solving Logic Problems, Step by Step." SQUARE DANCE

In Square Dance, you're to fit the words in the Word List into the diagram, one letter per box, so that every group of four boxes forming a square contains a word reading either clockwise or counterclockwise (see the letters entered in the middle of the diagram). Only the letters in the rows and columns next to the diagram are used in the diagram. As a help, words overlap throughout. Once you've determined where a word goes, cross it off the Word List and cross off the letters from the corresponding lines of letters reading horizontally and vertically. These lines will help you determine which letters can or cannot be entered into a given box. TORE has been entered into the diagram. To proceed, look for words that contain the letters TO, OR, RE, or ET either together or as first and last letters. For example, the only words with ET are DIET, EDIT, and TILE. Since there is no D in the fourth row of letters, EDIT doesn't go to the left of TORE. Similarly, since there is no I in the third row of letters, TILE doesn't go to the left of TORE either. Instead, DIET goes there into the diagram counterclockwise. Don't forget to cross off the letters as you enter them. Once a letter is entered into a box, it must be crossed off from both the corresponding column and row of letters of that box.

CRYPTOGRAMS

In Cryptograms, you are given sentences in which one set of letters is substituted for another. The words are in their right order, with a space after each. For example, THE WHITE DOG might be written as RNS LNGRS MPI, R being used for T, N for H, S for E, etc. You can break each code by watching for the frequency of certain letters or the way they are grouped. You know that a single letter is usually A or I, that the word THE occurs very often in our language, as does AND. Try IS, IT, OF, and other common words when you find a group of two letters. Each Cryptogram is in a different code.

Answers are on page 125.

CHIP OFF THE OLD BLOCKS

The names of six 5-letter fabrics are hidden on the blocks below. To find them, all you have to do is "chip off" one block from each stack, in order from left to right, to spell out each fabric's name. You may chip off each block once only, and when you are finished, all 30 letters will have been used once.

Answer is on page 128.

Solution is on page 121

SYMBOL ADDITION

Each of the music symbols in the math equations below stands for a different number; however, each symbol stands for the same number every time it appears. Can you figure out what number each symbol represents?

Answer is on page 128.

$$\begin{array}{r}
 \text{treble clef} + \flat + \sharp + 6 = 52 \\
 \text{treble clef} + \text{treble clef} + \sharp = \flat + \flat + \flat + \flat + \flat \\
 \text{treble clef} - 6 + \sharp = \flat + \flat + \flat
 \end{array}$$

34. Conduit contents
35. Hardly preserve
36. Electrical unit
37. Dueling sign
38. Dermal feature
41. Stottlemire of the Yankees

Solution is on page 121

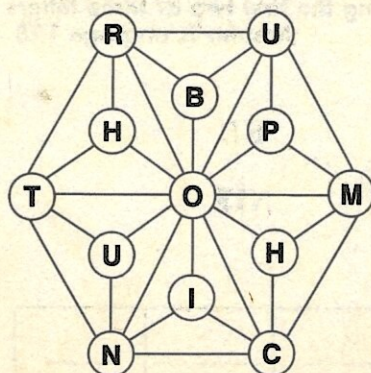

SPELLATHON

The idea of Spellathon is to form as many 5-letter words as you can by moving along the connecting lines from one letter to another in the diagram below. Do not skip letters. You may come back to a letter and use it more than once in the same word (as in "boron"), but do not stand on a letter, using it twice in direct succession (as in "booth"). Words beginning with a capital letter, contractions, and plurals are not allowed, and neither are hyphenated, obsolete, slang, poetic, archaic, foreign, and dialect words.

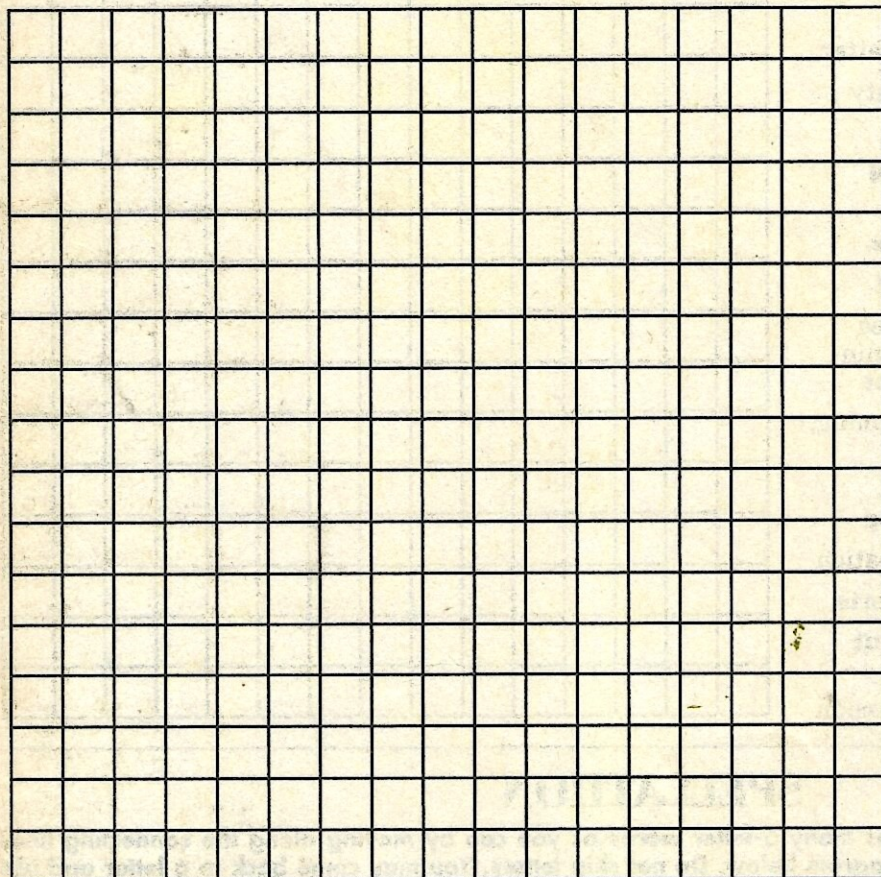

Our list of 31 words is on page 126.

Your list of words:

ACROSS

29. Plane's wing flap
30. Since
32. Light umbrella
34. Calmed
37. Dash
39. Musical work
40. Sports event
41. Far from rigid
43. Zoo denizen
44. Heavy volume
45. First exile?
46. Kelly's partner
48. Machinist's tool
49. Old Russian space station
50. Shiny material
52. Mining lode
54. Flourish
55. High tidal wave, in England
57. Loose-lipped one: slang
59. Reunion attendees
62. Sylvan beast

Solution is on page 123

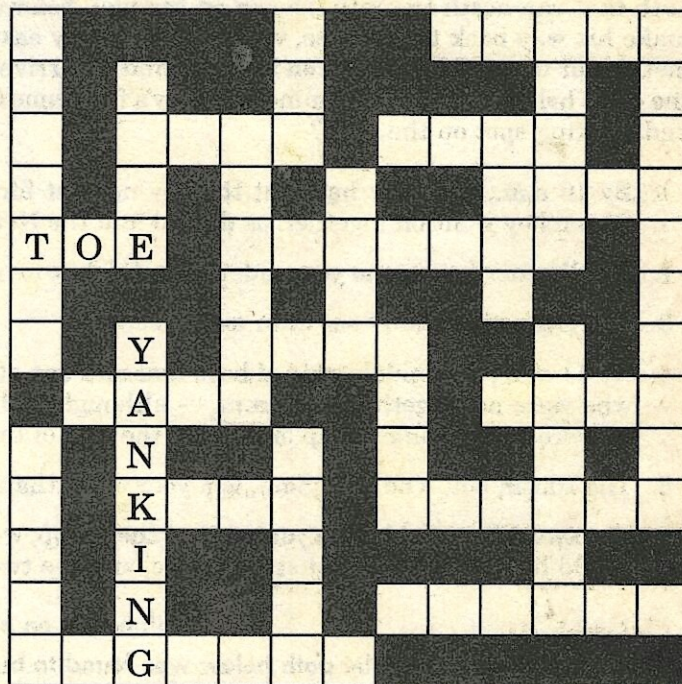

*I didn't know you
were Dames Thymel*

ALPHA-KROSS

An Alpha-Kross is like a Kriss Kross, but with a twist! You solve it as you would a normal Kriss Kross (see page 14), but there's no Word List. Instead, two words are entered to get you started; and the other 24 can be found in the 8 sentences below, exactly 3 per sentence. As a help, each of the puzzle's 26 words begins with a different letter of the alphabet. Can you choose the correct words and put them in their proper places?

Solution is on page 121.

- Mary and Felix were both xenophiles and had traveled to most countries in Europe and Asia.
- Even the husky dogs found it difficult to pull the sled across the ice.
- In "Jack and the Beanstalk," the hero finally manages to escape from the ogre.
- Zebras migrate in large numbers across the veldt each year.
- Kate likes bananas, but her brother prefers apples.
- Wisely, the king gave each of his four sons a quarter of the realm to oversee.
- His head droops as the old chap falls into one of his frequent naps.
- He acts with an intense gaze directed at the members of the film unit before each scene.

She's Cookie Monster?

ODD ONE OUT

Each of the 14 groups below features four words; three of these words are related, while the fourth is the "odd one out." Try to find the word in each group that doesn't belong. If done correctly, the initial letters of the odd words will spell out, in order, a four-word phrase describing what one hopes for at a picnic.

Answers are on page 128.

- intelligent, loquacious, discerning, astute
- furtive, surreptitious, officious, clandestine
- bedeck, embellish, traipse, adorn
- moody, variable, capricious, subterfuge
- careless, opulent, nonchalant, lackadaisical
- augury, omen, portent, fervent
- haven, sanctuary, refuge, gamut
- continuous, perpetual, oracle, infinite
- mannerly, affable, obstinate, deferential
- proscribe, divvy, expel, ostracize
- proselytizing, exhorting, fledgling, impelling
- clamor, fracas, tumult, ocelot
- gleaming, lustrous, optional, resplendent
- raucous, disburse, vociferous, strident

LOGIC PROBLEM

3. ON A PATHFINDING MISSION

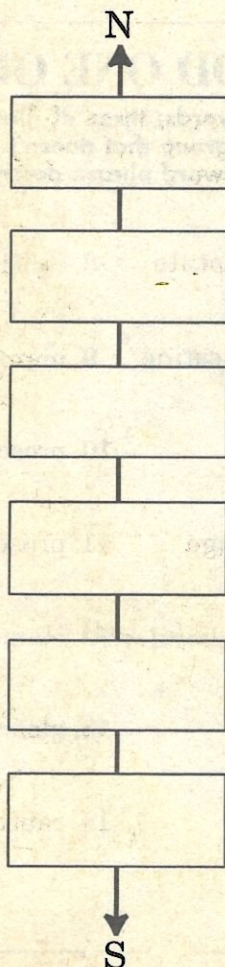

by Evelyn Rosenthal

This past fall, Mark and five other boys, all part of the local scouts group, needed to get the pathfinding badge, so their leader took them out to the local reserve and set them loose...well, actually put each on a path that ran north to south (shown on the map below) at 9 a.m. one Saturday. The aim was for each to make his way back to the base, which was directly east of the path. As their paths converged, each boy met one or more of the others on the way, and all arrived at the base by noon. From this information and the clues below, can you determine each boy's full name (one last name is Calder), age (in whole numbers), and starting spot on the path?

1. By 10 a.m., each boy had met the boy nearest him on one side or the other, so that John and the Bloom boy went on together, as did Ed and the Nelson boy, and Phil and the Porter boy.
2. The Warner boy is one year older than Ed, but he is not yet 15.
3. The Evans boy didn't see Sam until noon.
4. By 11 a.m., the middle pair of boys had met one of the other pairs, so that Ted and the Warner boy, who were not together at 10 a.m. — although both were stationed in the southern half of the path — were in the same group of four for the rest of the walk.
5. The Bloom boy, who isn't Sam, is a year older than Ed.
6. The two 13-year-olds, the youngest of the group, were nearest to the center of the path, so that they would have the shortest distance to go, and the two 15-year-olds were at the two ends of the path.

Solution is on page 127.

The map of the path below was found to be most helpful in solving this problem.

CROSS SUMS

1.

We have outlined one area in each diagram. If you need help starting a puzzle, the digit combination for that area is listed on page 130.

Solutions are on page 124.

ANACROSTIC 1

by Jacqueline E. Mathews

Using the definitions at the left, fill the words into the WORDS column. Then transfer the letters from the WORDS column into the corresponding places in the diagram. It is not necessary to know more than a few words to begin solving. Work back and forth from diagram to WORDS column until both are filled in. A black square denotes the end of a word. Your completed diagram will yield a quotation; the first letter of each word in the WORDS column, reading down, will spell out the author and the work quoted. Quotations are on page 126.

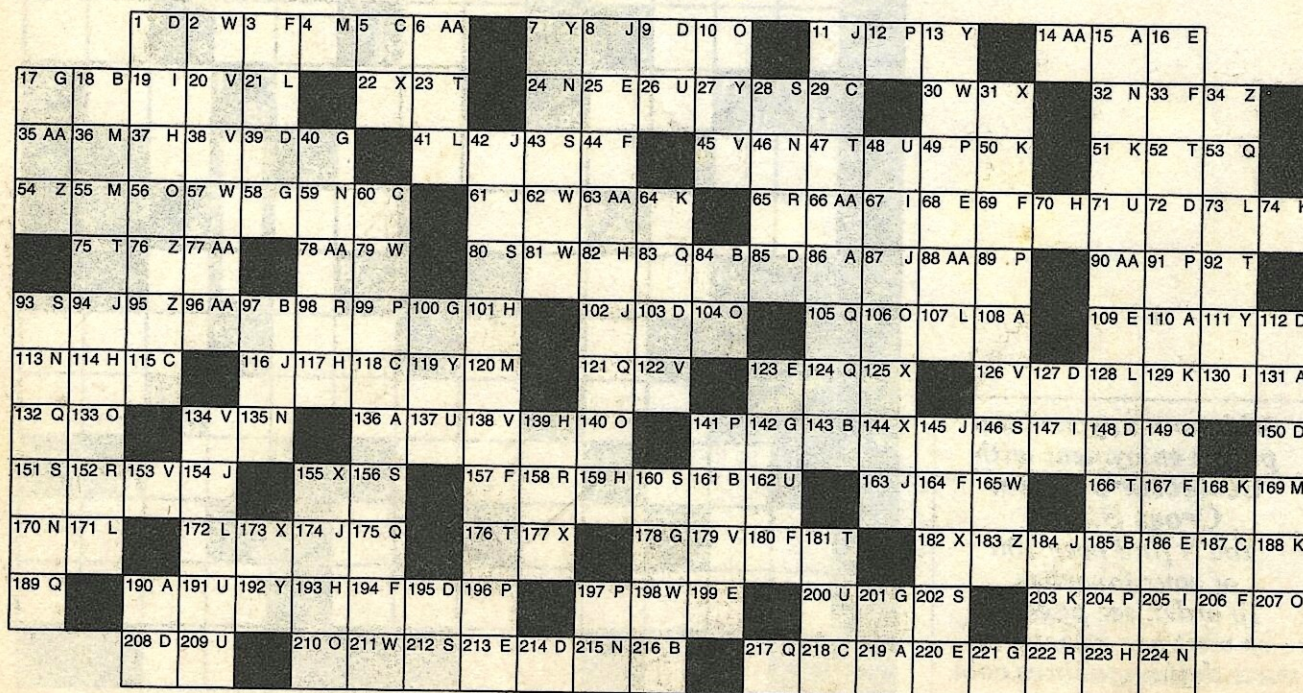

Word lists are on page 130.

DIAGRAM

5	5	5	5	5	5	5	5	5
5	4	4	4	4	4	4	4	
5	4	3	3	3	3	3	4	5
5	4	3	2	2	2	3	4	5
5	4	3	2	2	2	3	4	5
5		3	2	2	2	3	4	5
5	4	3	3	3		3	4	5
5	4	4	4	4	4	4	4	5
5	5	5	5	5	5	5	5	5

In this game of word solitaire, gain the highest score possible by forming words from your **LETTER LIST**, placing them in the **DIAGRAM** so that the words are formed both across (always from the left) and down (always from the top).

1. Write the first seven letters from the LETTER LIST on the first line of the DRAW COLUMN.
2. Form a common English word (no proper nouns) using two or more of these letters.
3. Place the word across or down in the DIAGRAM, either starting or ending in the square indicated by a circle. Do not place letters on any blacked-out squares. Add up the score (see 7 below) and enter it into the SCORE column. In the DRAW column, cross off the letters you used.
4. Copy all unused letters of the DRAW onto the next line, and add enough letters from the LETTER LIST (in sequence) to bring the DRAW up to seven letters.
5. For each DRAW, use some or all of the seven letters to form a new word in the diagram, by either adding one or more letters to an existing word or setting a new word at right angles to an existing word (either incorporating one of its letters or adding to it), or by placing your new word parallel to an existing word (so that the adjoining letters also form words).
6. All letters used in any one DRAW must be used in only one row, either across or down. Only complete words may be formed. Letters adjoining other letters must always form a word, in crossword form.
7. Write your DRAW score in the SCORE column each time you complete one DRAW by adding together all the numbers in the corners of the squares used to form or modify words. If a word has been changed by adding a letter or letters (such as adding "s," "ed," "re," etc.), count the entire word again toward your score. Two or more words formed at the same time are both counted; the square common to both new words is counted with each word. Words within words are not counted.
8. If you cannot use any letters from a given DRAW, cross off all seven letters and subtract 25 points from your score for that DRAW. Bring down the next seven letters from the LETTER LIST and try to form your next word.
9. When the DRAW column is complete, the game is finished, whether or not all the letters from the LETTER LIST have been used. If all the letters in the LETTER LIST have been transferred to the DRAW column, you may continue to form words through the final DRAW, transferring any unused letters to the remaining lines of the DRAW column. If, at any time, all the letters from the LETTER LIST are used up to form words, add 50 points to your score and count the game as complete. Your final score is calculated by adding up all the points in the SCORE column.
10. When you finish the puzzle, the same word must not appear twice in the diagram.

THE DOT GAME

The idea here is to try to get as high a score as you can by sectioning off units of five or fewer squares in the diagram. You may section off units going EITHER across or down in a straight line; you may not go both across and down in the same unit, nor may you go diagonally. Try to section off your units to reach the highest total possible according to the scoring system below. In order for a square to be included in a unit, it must be part of one of the combinations listed. Once you have used a square in a unit, you may not use it again; in other words, your units may not overlap. Each unit must consist of a line of adjacent squares forming one of the scoring combinations. We have outlined one unit to get you started; this 3-square unit contains a trio, which scores 10 points. **HANDICAP:** When you have finished sectioning off the diagram, deduct five points from your total for each square you did not include in a unit.

Our solution, showing a score of 270 points, is on page 129.

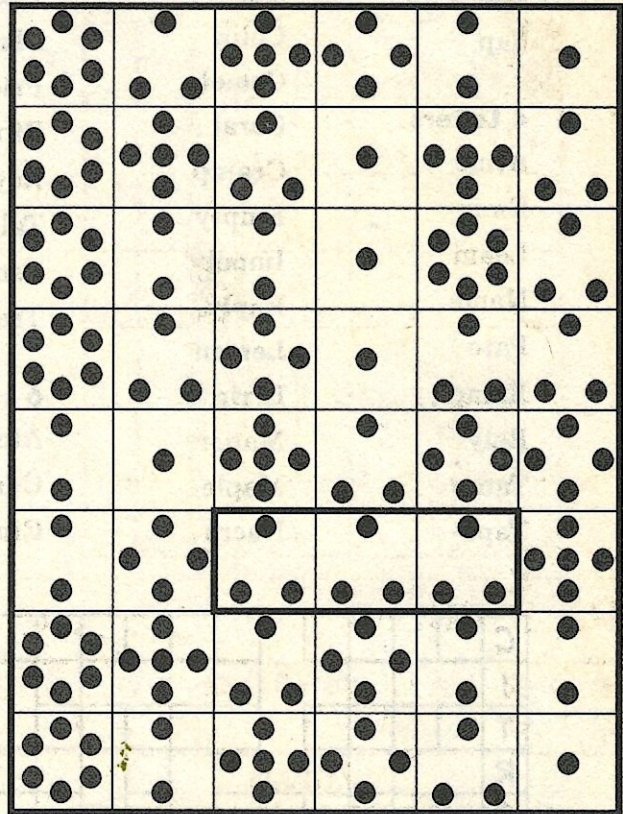

SCORING PER UNIT

- 1 pair 5 points
(2 squares the same)
- 1 trio 10 points
(3 squares all the same)
- 2 pairs in any order 15 points
- 1 quartet 20 points
(4 squares all the same)
- 4 consecutive numbers in any order 25 points
- full house in any order 30 points
(1 trio plus 1 pair)
- 5 consecutive numbers in any order 35 points
- 1 quintuplet 40 points
(5 squares all the same)

RATE YOUR GAME AS FOLLOWS:

240 or above: EXPERT
200-215: GOOD

220-235: EXCELLENT
180-195: AVERAGE

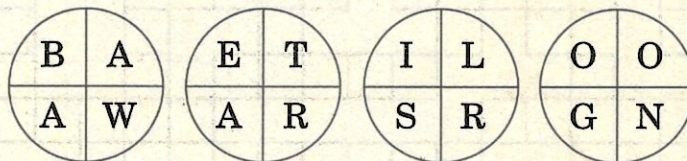

WORD ROTATION

For each puzzle below, can you rotate the circles so that the row of letters reading across the top of the circles and the row across the bottom spell out an everyday word? The circles will not necessarily rotate in the same direction, and you will have to rotate some circles further than others in each puzzle. As you rotate the circles, remember that the letters should always appear right-side-up in your mind's eye.

Answers are on page 128.

Fresno	Norway		Belgium	Wyoming

BOWL-A-SCORE CHALLENGER 1

In our bowling game, a strike (worth 20 points) is made by using all the letters in a group to form a 9-letter word. The first letter of each strike is shown. A spare (worth 10 points) is made by using all the letters to form two words. A spare may not be formed by splitting the strike word in two (for example, the strike word "FOREFRONT" cannot be split into the spare "FORE" and "FRONT"). Proper nouns may not be used. A perfect score is 300 points.

The words we made are on page 126.

1. T Strike
R T I _____
P N O Spare

LOGIC PROBLEM

4. HIGH SCHOOL'S OVER

by Catherine Semel

This past summer at Seniors Honors Night at Concord High School, the center of attention was on five graduating seniors (two are Lynn and Daniel). Not only were they the top five ranked students in their class, but each was also being honored for his or her contribution to the school through participation in a different activity. To top it off, these five didn't do too badly on the SAT exam either (though none scored the same), and each was scheduled to attend a different college after graduation (one is Amster University). From this information and the clues below, can you determine each senior's activity, prospective college, SAT score, and class rank?

- Steven scored higher on his SATs than Joseph, but lower than the student who is the soccer captain.
- Marie finished one place lower in class rank, but scored 30 points higher on the SAT, than the female student going to Balister College.
- The band captain finished two places higher in class rank than the student going to Datin College.
- There is exactly a 100-point difference between the highest and lowest SAT score of the five.
- The student going to Carmen University scored 10 points higher on the SAT than the highest scoring female.
- Marie is either the student council president or on the debate team.
- The student who finished fourth in class rank scored 1430 on the SAT, and is not going to Erkin College.
- The yearbook editor, a male, had the lowest SAT score of the five, 1400, but is not the lowest in class rank.
- Steven, who isn't the student council president, and Joseph, are the seniors who will be attending Datin and Erkin colleges, in some order.

Solution is on page 127.

See page 34 for directions on how to use the solving chart.

	band capt.	debate team	soccer capt.	student council	year-book	Amster	Balister	Carmen	Datin	Erkin	1400						1st	2nd	3rd	4th	5th

A TO Z ANAGRAMS

Below you will find every letter of the alphabet followed by a 5-letter word. All you have to do is add this letter to the word and then rearrange all six letters to form a 6-letter word. **HANDICAP:** Your 6-letter word must begin with the same letter you added to the 5-letter word. We've done the hard one for you (X + DOILY = XYLOID, an adjective meaning "of or like wood"), so you can take it from there. Words beginning with a capital letter, slang, foreign, and obsolete words are not allowed. Plurals, however, are okay.

Our list of words is on page 128.

A + HORSE = A	_____	N + VOICE = N	_____
B + TRITE = B	_____	O + EVILS = O	_____
C + CLEAN = C	_____	P + RILES = P	_____
D + MAILS = D	_____	Q + ENSUE = Q	_____
E + REARS = E	_____	R + DUETS = R	_____
F + STORE = F	_____	S + PLEAT = S	_____
G + URGED = G	_____	T + FLIER = T	_____
H + LADEN = H	_____	U + STERN = U	_____
I + DUNCE = I	_____	V + SPIRE = V	_____
J + LUSTY = J	_____	W + TILED = W	_____
K + THING = K	_____	X + DOILY = X	<u>Y</u> <u>L</u> <u>O</u> <u>I</u> <u>D</u>
L + BALES = L	_____	Y + CHATS = Y	_____
M + YODEL = M	_____	Z + SABER = Z	_____

SUM LOGIC

The object here is to place the numbers surrounding the diagram into its empty boxes in such a way that the five numbers in each row, each column, and each of the two diagonals add up to 93. Numbers cannot be repeated within a row, column, or diagonal. **HANDICAP:** Each number must be placed in one of the boxes of the row or column outside of which it now appears. Solution is on page 129.

	36	21	10	25	12	
22		3				27
27					8	2
2			13			30
35	13					17
17				23		22
	20	12	31	16	21	

WORD DOMINOES

The object of Word Dominoes is to write the answers to the definitions in the empty diagram so that wherever two boxes meet, the letters in those boxes will match just like in the game of dominoes. Each of the answers is eight letters long, starts in the numbered box, and will be entered in a clockwise direction. We've filled in two answers as an example of how words are filled into two adjacent dominoes. You may discover that, at times, you will not be able to figure out the answer to a definition, but entering letters from adjacent dominoes will help you ascertain the word.

Solution is on page 129.

1. Put up with
2. Piazza's game
3. Student of plants
4. Glacier bits
5. Having the most suds

QUOTE UNQUOTE

The idea of this game is to get the highest score possible by forming words from the letters used in the sentence below. The words you form should be at least two letters long and not longer than seven letters. You will score more points for forming longer words, so you should begin by forming 7-letter words. Our solution uses seven 7-letter words, and one 4-letter word.

Write the words you form on the dashes provided. Cross out the letters used to form each word, as each letter of the sentence may be used only once. Continue in this manner until you have used as many letters as you can (any unused letters will be subtracted from your score), forming as many different words as possible. When finished, the same word must not appear twice in your word list. Names of people or places are not allowed, and only common English words may be formed. Plurals are allowed. A word appearing in the quote may not be used as one of your words, although another form of the word may be used.

SCORING: Find your score for each word formed in the table below. Add up those scores; then add up the number of unused letters, multiply by two, and subtract that number from your score.

Our answer, showing a score of 206, is on page 128.

Words	Score

seven-letter words	28 points

CHECKER WORD SQUARES

The object of Checker Word Squares is to remove as many of the lettered checkers from the game board as possible by jumping over checkers, as in a standard game of checkers. In order to make a jump, however, you must be able to combine the letters on the checker being jumped with the letters on the checker doing the jumping to form one 6-letter word.

For example: A possible move would be to remove the checker on square 9 by jumping from square 11 to square 7. You would use the letters on the checker on square 11 and the checker on square 9 to form a 6-letter word — FEMALE, for example — and write the word on one of the dashes next to the game board. You would then cross off the letters in square 9 — that checker has been removed from the board. You would also cross off the letters in square 11, and write them in square 7 — that checker has jumped to a new square and can be used again to form another word. Squares 11 and 9 are now vacant, so you may make jumps to those squares later in the game, writing in the letters of a checker landing on the squares and crossing them out if the checker is moved again.

Jumps may go in any direction along the diagonal of the game board, but you may jump over only one square at a time, and only if that square contains a checker. You may not jump to a square which already contains a checker. If you reach a point where there are only two checkers left on the board, you may use the letters on the two checkers to form a word and remove both, even if they are not in line to jump each other. Score 10 points for each word formed; our words, removing all the checkers for a perfect score of 90, and the moves we made to form them, are on page 128.

LOGIC PROBLEM

5. RAINY DAY FUN

by David Johnson

Mrs. Dill was in a pickle! She had invited four of her young daughter's friends over for a trip to the zoo, but as they were preparing to leave, she heard on the TV that heavy rain was quickly moving into the area and would last the rest of the afternoon. As a master of innovation, she announced the bad news to the five kids, but suggested that they stay in and bake and decorate cupcakes instead. This idea was met with enthusiasm, so off they went to the kitchen. The children, under the watchful eye of Mrs. Dill, baked and decorated a total of one dozen cupcakes that afternoon. Two of the kids decorated the same number. Each child was allowed to select two toppings from a choice of four (one was chocolate icing) and decorate all his or her cupcakes with the same two. From this information and the clues below, can you determine each child's full name (two first names are Mary and Sam and one last name is Down), toppings, and number decorated?

1. No child selected the same combination of toppings as another child.
2. All four toppings were used, in some combination, by the two children (one boy and one girl) who decorated the same number of cupcakes.
3. The three girls are Ann, Upshaw, and the one who used peanut butter and sprinkles.
4. The two boys are Flowers (who used peanut butter) and the one who used strawberry jam.
5. Julia (who decorated the most cupcakes) used sprinkles, but no child used both sprinkles and strawberry jam.
6. Ed had one topping in common with each of the other four children.
7. The Redd child used peanut butter (but not sprinkles) on the only cupcake she decorated.

Solution is on page 127.

See page 34 for directions on how to use the solving chart. NOTE: Since each child used two of the four toppings each, you will have two "yeses" in those columns and rows for each child.

		Dill	Down	Flowers	Redd	Upshaw	choc.	peanut butter	spr.	straw.	number				
	Ann														
	Ed														
	Julia														
	Mary														
	Sam														
number															
chocolate															
peanut butter															
sprinkles															
straw.

WHAT'S MISSING?

Here's a fun puzzle for solvers who enjoy anagramming. The letters that make up eight different common words are given — all except one, that is. In each group, you are to determine what the missing letter is, and then anagram all the letters to form a common word. (Note: In this puzzle, Y is considered a consonant.)
Our answers are on page 128.

Can you discover...

1. a five-letter word containing one T, one R, one B, one I, and one other consonant?
2. a seven-letter word containing one G, one T, one D, one R, one U, one A, and one other consonant?
3. an eight-letter word containing two V's, two I's, one A, one T, one Y, and one other consonant?
4. an eight-letter word containing three E's, one V, one T, one M, one N, and one other consonant?
5. a nine-letter word containing four E's, two N's, one T, one S, and one other consonant?
6. a nine-letter word containing two G's, two N's, two I's, one L, one T, and one other consonant?
7. an eleven-letter word containing three I's, two T's, one A, one G, one L, one N, one Y, and one other consonant?
8. a twelve-letter word containing three E's, two S's, one R, one H, one F, one L, one N, one U, and one other consonant?

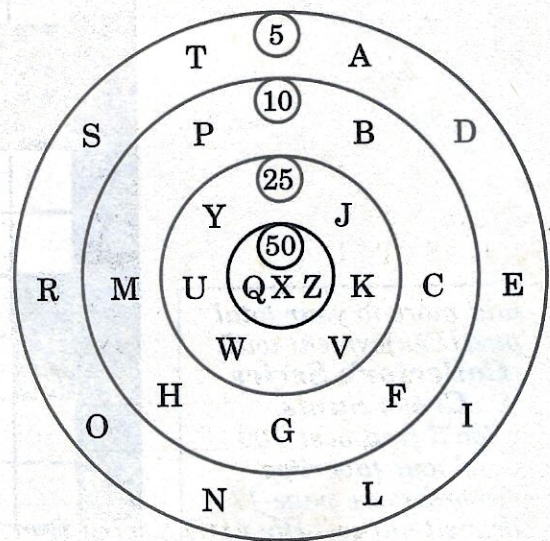

ON TARGET

The object of this puzzle is to reach the highest score you can while forming everyday 5-letter words. To form your words, select two letters from the "target" below, and add them to a given word without changing the order of the letters in the given word. You may, however, place each additional letter anywhere in the given word that you wish. For example, you could add the letters S and D to AWE to form SAWED or A and N to TOE to form ATONE. Each letter in the target is to be used only once, so it is a good idea to cross off each one as you use it. However, you will not use every letter in the target.

SCORING: Each letter within a section of the target is assigned the number value shown in that section. For example, the A, D, and R are worth 5 points each; the B, G, and M are worth 10 points each; and the Q is worth 50 points. To find your score, add together the point value of the two letters you have added to each word; that is your score for that new word. Add together the word scores to find your total score.

Our answer, with a score of 340 points, is on page 128.

Given Word	New Word	Score

BOWL-A-SCORE CHALLENGER 2

Solve this Bowl-A-Score Challenger like you did the one on page 88. This time, though, your "strike" words will be 10 letters instead of 9 letters. The scoring, however, will be the same.

The words we made are on page 126.

*Collector's Series Bowl-A-Score Challenger has 58 puzzles.
To order, see page 17 or visit our website at www.dellmagazines.com.*

DIAGRAMLESS

Here are two real toughies for solvers who like their puzzles hard. We have omitted such helps as "2 wds.," "slang," etc.; but in the spirit of fair play, abbreviations and foreign words are indicated.

Solution is on page 123.

ACROSS

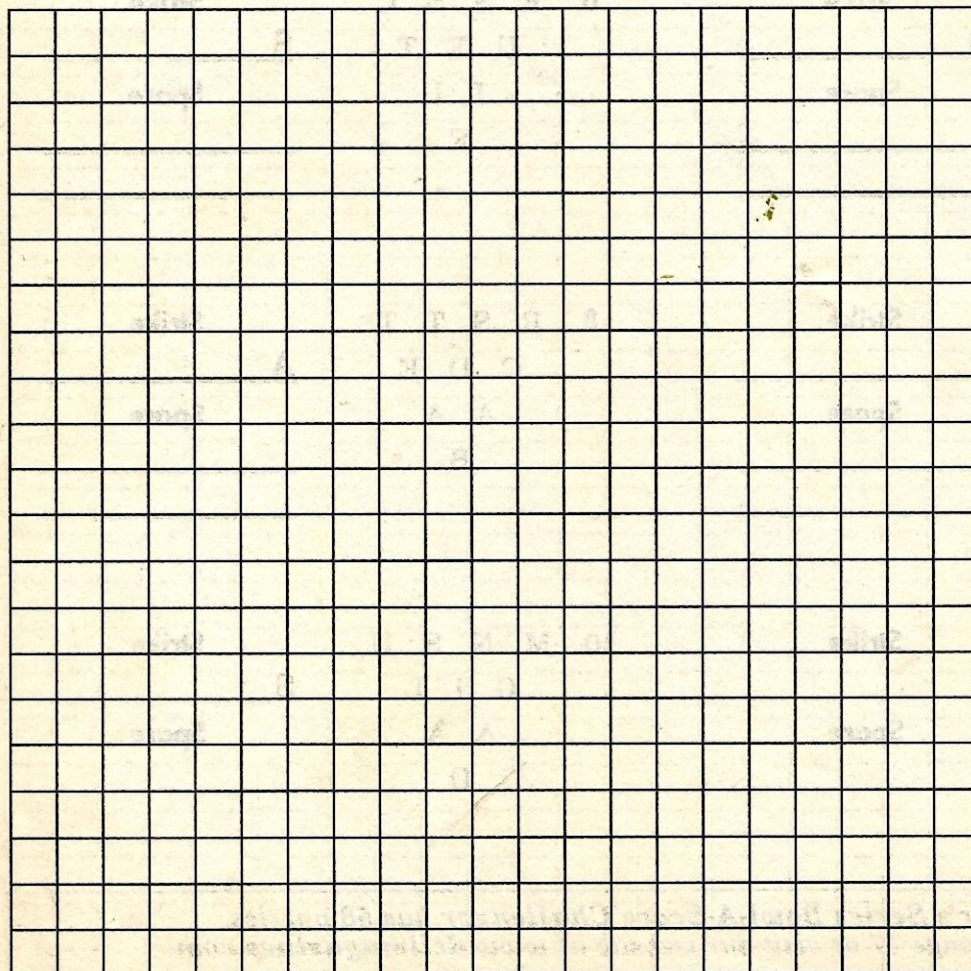

1. Staircase feature
6. Be grandiloquent
7. Escrow document
11. Eliot character
12. Patron saint of sailors
13. Smart guys?
15. "Gosford Park" employee
16. Some votes
17. Ostentation
21. Like gliders at takeoff
23. Chicago columnist Irv, for short
24. Brawl
25. Brazilian bird
27. Topple
28. Less iffy
29. Squaring-off phrase
34. Be gracious
35. Hurls (a baseball)
36. Refueling vessel
37. Less rubicund
40. Creation location?
42. Beach resort
43. Asian wasteland
44. Old thing
46. Nights to celebrate
47. Cognate
48. Nessie's milieu
49. Took part in histrionics
51. Flower-box spot
53. Downtown drag
55. Sister of Sacheverell
58. Sudden realizations
61. Creepy
62. Pure, fresh air
63. Hitches and bends
64. Tasteless
65. Fridge storage

66. Word in a diary
71. Landscaper's barrier
72. Phoenician seaport
73. Chukkers match
74. Key for Beethoven's "Symphony No. 7"
76. At any time
77. Home to Lake Pend Oreille
78. Official's post
79. Do a second cutting
80. Use the prie-dieu

DOWN

1. Yenta, often
2. Blore and Idle
3. Diamond stat
4. Letters from Sparta
5. Arles article
7. A Moore

8. Verve

83. Presidential monogram
84. *Siècle*
85. Stir up
86. Author Jaffe
87. Narrative
88. Immense
89. List ender: abbr.

Solution is on page 123

LINE BY LINE

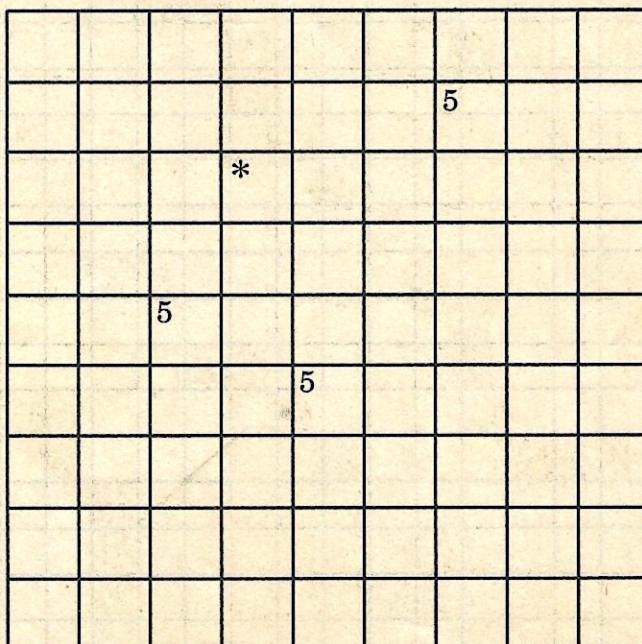

by Henry Kroger

The object of Line by Line is to beat the expert's score by selecting words from the list and entering them into the diagram according to the rules below.

First, choose one of the four words in Line 1 of the list and write it in the diagram so that one of its letters is in the starred box. A word in an Across column must be entered horizontally and one in a Down column vertically. Next, select one of the four words in Line 2 and write it in the diagram so that it shares a letter and crosses at a right angle with the word you chose from Line 1. Proceed all the way down the list in order, choosing one word from each line and writing it in the diagram. Each word selected does not have to cross with the previous word selected, but it must cross with one of the existing words in the diagram. If you cannot cross a diagram word with one of the words in a line, move on to the next line of the list; that line of words is lost. When you have completed the puzzle, the diagram should not contain any word that does not appear in the list.

SCORING: Give yourself the number of points in the parentheses, either 5 or 10, in the column heading for each word entered. Give yourself an additional 5 points for each letter that is in a 5-point box, and a 20-point bonus if every letter of the alphabet appears in your finished diagram. Our expert tallied 130 points; a score of 100 or more is excellent, 90 good, and 80 average. Solution is on page 129.

ACROSS (5)	SCORE	DOWN (5)	SCORE	ACROSS (10)	SCORE	DOWN (10)	SCORE
1. HOAX	_____	KITTEN	_____	DISTANT	_____	JAR	_____

58. Flower with a bed?
59. Lunch option
60. Multiple-Grammy winner
64. Spouts
65. Field positions
66. Hardships
68. Puffs up
70. Soup's kin
72. Stripe
73. Yellow goody
75. Short-lived
77. Grin distance?
78. Raw recruit
83. Terrycloth inscription
84. Swamp snapper
85. Bear witness
86. Serendipity
87. Get together
88. "Oh, brother!"
89. Full of beans
90. Together
91. Pianist Paderewski
92. Shoot the breeze
94. Farm newcomers
95. Strong-arm
98. Cabbage variety
99. Blot (out)
100. Music box?
101. Peter was the first
102. Come down
105. Meadow, in Metz
106. Two Uners

Solution is on page 123

ACROSS

1. Precious bit
6. Circus star
10. Pedestal part
14. Comes forth
19. Aiea utterance
20. Copy stevedores
21. Coarse fiber
22. Work follower?
23. Oh, she's a whiz with a soldering iron!
26. Ms. Verdugo
27. "Totally!"
28. Catalpa, e.g.
29. Unfounded
30. Like some necks
31. Disturb the peace?
32. Furniture material
34. Addict
35. Friday-night orders
38. Pitched inaccurately
39. Good: Hebrew
40. Philosophy topic
43. Pistols: slang
44. Bring into agreement
45. Punjabi big shot
46. Yemen port
47. Dundee responses
48. Well, he's no Schwarzenegger!
52. Samuel's teacher
53. Printers' measures
54. Ladder: Italian
55. Icicle origins
56. Disconcerted
58. Understand
59. Apart from: French
60. It glows
61. Very eager
62. A Linda
64. Less important
65. Samantha's aunt
66. Common colloids
67. Sauce additive
68. Greasy mineral
69. Expected
72. — range
73. Bread descriptive
74. Pilgrim's getaway-need?
75. Flamenco shout
76. Ferrell hit
77. No, she was for animal rights!
80. CIA aids
81. Towards, in Tours
83. Takes home
84. Forelimb bone
85. Al-Tih locale
86. Bit of marginalia
87. Olympians' routs
88. Wooden accessory
90. Cultivate
91. Mandarin's abode
93. Think: French
94. School class
95. Unbearable
97. Highlands hillside
98. Rich

99. First-date query?
102. Neighbors
103. No, he's much better now!
107. Fine thread
108. Bagel topper
109. Rural youngster
110. Of gold
111. Clear sky
112. Education pioneer
113. Lunch choices
114. Below, to bards

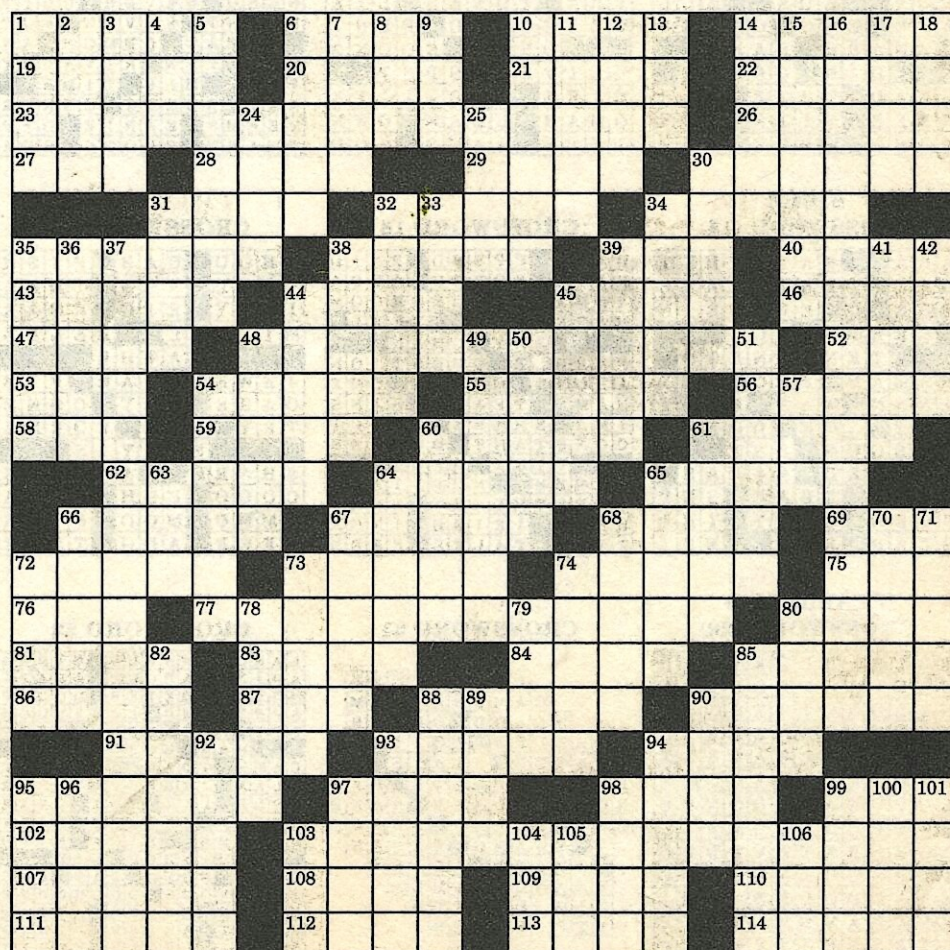

DOWN

1. Broadway's Huffman
2. Lotion additive
3. European deer
4. Nursery syllables
5. Bugle signals
6. Unctuous
7. Poise
8. Annex
9. Place for a poetic picnic
10. Lose time
11. Jergens of "Show Boat"
12. Sylvan area
13. Singular
14. Agriculture icon
15. Spelman College's city
16. Any time his neighbors were too loud!

17. — Inch Nails
18. Jackfish
24. Liquid holders
25. Pound statements
30. Cultured
31. Barnyard residents
32. Obsession
33. A Waugh
34. Church basins
35. Covered with some greenery
36. Tabriz native
37. Only when he's late!
38. Unrolls
39. Northwest export
41. Messy mixture
42. City near Tulsa
44. Extinct rulers?
45. Up the —
48. Software features
49. Fashion dictate
50. Peg
51. Obliterate
54. Discredited
57. Put out there
60. Studio find
61. Measure out
63. Kilmer of film
64. Party foods
65. Tropical bloom
66. Butcher's offering

67. Thai bread
68. Jape
70. Pond organisms
71. Plastics modifier
72. Guns
73. Ancient theater
74. Actress Sevigny
78. Signed
79. Lumps
80. Guided missile
82. Affright
85. Sleep facilitator?
88. Inure
89. Freshly
90. Big benefit, perhaps
92. Stiff
93. Be narcissistic
94. Is agitated
95. Robust
96. Tabloid excerpt
97. Gaucho's implement
98. Spill it
99. New Age term
100. Pluck
101. Impress sharply
103. Brazilian title
104. Speculations
105. Herbert Hoover's wife
106. Loud outcry

CHANGELINGS

1. LOUD, lord, lore, lone, TONE.
2. YARN, barn, bare, bale, TALE.
3. SEAS, sees, seep, keep, KELP.
4. DIVE, dove, dole, pole, poll, POOL.
5. NODS, noes, hoes, hoed, heed, HEAD.
6. SILK, milk, mile, mole, hole, HOSE.
7. TROT, toot, loot, lost, last, east, EASY.
8. WOOD, good, goad, road, roam, ream, BEAM.
9. BAKED, baled, bales, balls, bawls, bowls, FOWLS.
10. FISH, fist, list, lint, lent, lend, pend, POND.

(Using the same number of changes, other answers may be possible for each Changeling.)

CRYPTOGRAMS

1. A raise is an increase you get in pay so you can go deeper in debt.
2. I think those who talk too fast often say things they haven't even thought of yet.
3. Another reason it's very hard to become rich in a tiny town is that everybody is watching.
4. A great-grandmother points out how she's managed to stay young: "It takes time to grow old, and I've never had any."
5. Of course, when we listen to too much helpful advice, we are going to wind up making others' mistakes.
6. There is only one way by which a man can express the inexpressible, and that is by silence.
7. A ship in a harbor is safe, but that is not what ships are for.
8. There are few who work fast enough to keep up with their good intentions.
9. Child guidance is something parents should provide rather than submit to.
10. When we're tactful for an hour, nobody ever notices; if we're tactless for one minute, everybody notices.
11. For shoppers, no doubt, a discount sale is the better part of value.
12. The only thing that can disturb us more than a neighbor with a noisy old car is the one who owns a quiet new one.
13. Bores are those whose conversations can be very hard to listen to but really easy to yawn at.
14. Any man would retire pretty nicely in his old age if he could dispose of his experience for what it cost him.
15. The big distinction between plain gossip and news is whether one hears it or tells it.
16. Some folks never take advice from anybody, while others take it from everybody.
17. Road-construction traffic controller's strength "flags" after lunch.
18. I can never be sure, but from the smell I suspect some of our cheeses are not so much imported by the United States as deported by Italy.
19. What they said long ago is a rule still true: Empty wagons do make the most noise.
20. One who really understands the value of cold cash is the fellow whose salary isn't so hot.
21. Keep the old chin up — it reduces the neck wrinkles.
22. Be careful of little expenses; unless plugged, one little leak can crack the big dike.
23. Children play the pretend game. Adults indulge in daydreams.
24. Psychiatrists believe that most people are much better off if they get angry rather than even.
25. There's now a combination compact-disc player and air conditioner for those who like to play it cool.
26. Gifts, similar to those receiving them, come in many different sizes, and they never match.
27. Fattening foods, such as fettuccine Alfredo, French fries, and baked Alaska, are full of flavor but falling out of favor.

28. Character is something as simple as the unselfish and unenvious passing of the credit to those most deserving.
29. It is easy to keep from being a bore: Just praise the person with whom you are speaking.
30. Don't worry about forgetting things as you grow older. You'll forget what you forgot.
31. When playing cards stick together, rub some talcum powder over them and you'll have a smooth deal.
32. We like the one about the rock star who attended music school and graduated magna cum laude.
33. The biggest mistake to make is to be forever afraid of making one.
34. Some folks might call a midnight snacker a "refrigeraider."
35. If a man "can't contain himself," is he too large or too small?
36. The best puzzle constructors recognize that their puzzles should be creative, clever, and challenging.
37. Old saying worth knowing: "If luck is with you, why hurry? And certainly, if luck is against you, why hurry?"
38. Aluminum is one of the most abundant metals to be found in nature.
39. Education's main goal should not be to produce anything or anybody, but to open a person's mind.
40. There's only one man in the theater who can truly count on steady work: the night watchman.
41. Plum jam perks up plain toast or muffins, making breakfast more enjoyable.
42. Candid photos of oceanside stopover delight travelers.
43. Stars and stripes comprise age-old motif of American flag.
44. Gift of jab: just what critics have in abundance for sardonic reviewers!
45. Flowerless most of its life, wild agave bears grand blossom as its final gesture.

ANAGRAM ANTICS

1. composer; 2. druggist; 3. preacher; 4. mechanic; 5. inventor; 6. perfumer; 7. comedian; 8. lyricist. Answer: merchant.

FIGGERITS

1. Every horse thinks its own rider heaviest.
2. Always do right and astonish your foes.
3. Don't waste energy trying to teach a fool.
4. Too many people lead second-hand lives.
5. A clear conscience fears no accusation.
6. Few things are as hard as they appear to be.
7. Cheerful companions make labor light.
8. A family tree is often a work of fiction.
9. Love is made more of waltzing than wrestling.
10. Chickens that cackle most lay fewest eggs.
11. Don't give up; success may be a moment away.
12. The prettiest flower may not be the sweetest.

QUOTATION PUZZLES

1. Greatness lies not in being strong but in the right use of strength.
2. Everyone could use wealthy relatives and those who have them usually do.
3. The problems we face cannot be solved at the same level of thinking we were at when we created them.
4. Humor has been analyzed with a good deal of success by any number of people who have not written any.

MOVIE QUIZ

1.c; 2. a; 3. c.

SILLY DILLIES

1. chest of drawers; 2. befall.

COUNT ON IT!

Shake hands and come out fighting.

BOWL-A-SCORE CHALLENGER 1
STRIKES: 1. important; 2. guiltless; 3. evolution; 4. frosthite; 5. cherished; 6. replenish; 7. melodrama; 8. predatory; 9. rationale; 10. demagogue.

ANACROSTICS

1. Author: Dr. Laurence (J.) Peter

Work: PETER'S PEOPLE

"Things that are supposed to happen do not happen...when people are looking.... Your television set is flickering. The repairman can find nothing wrong. In his presence, it works perfectly. After he leaves, you settle down to your favorite program, and the picture resumes flopping."

2. Author: David Louis

Work: FASCINATING FACTS

"The penguin has an apparatus above its eyes that enables it to transform salt water into fresh. The penguin takes only one mate during its life and is such a conscientious parent that it will, if necessary, starve to death in order to provide its children with food."

3. Author: (H. L.) Mencken

Work: (THE) AMERICAN LANGUAGE

"Oklahoma is the Sooner State...from the term used to designate the early settlers who sneaked across the border before the land...was thrown open.... They were called sooners, and...the term began to be applied to all the citizens of the State."

4. Author: N(ancy Harmon) Jenkins

Work: A FORKFUL OF HISTORY

"Some chefs cook by instinct, unable to say why they do what they do except that it just seems right. Others cook while... thinking...about the relationship of flavors and textures.... The first group may create great dishes, but the thinkers are...more interesting to talk to."

5. Author: (Sarah) Vowell

Work: (THE) PARTLY CLOUDY PATRIOT

"Alan Shepard hit golf balls on the moon. Gearing up to face the profundity of the universe, this man brought sporting goods with him into space.... That's what we Americans do when we find a place that's really special. We go there and act exactly like ourselves."

6. Author: Daniel Cohen

Work: ANCIENT EGYPT

"The cat...held a special place in Egyptian worship. Cats were first domesticated in Egypt, where they have always been popular.... Cats killed the mice and rats that ate grain. A cat would be among the first rescued from a burning house."

7. Author: (Jane Ellen) Wayne

Work: THE GOLDEN GIRLS OF MGM

"[Louis B.] Mayer's [MGM] beauties had to have his permission to marry. If they defied him, they were suspended without pay but if Mayer blessed the union he most likely gave the bride away at the wedding. Often he took the groom aside and whispered, 'We don't want babies, do we?'"

8. Author: (Kennedy) Fraser

Work: THE FASHIONABLE MIND

"Paris fashion was in origin a celebration of femininity, of beautiful shapes, fabrics, and workmanship; American fashion developed more as a manufactured product, to be sold, by way of the most ingenious and intensive Madison Avenue methods."

9. Author: Thomas Hoving

Work: ART FOR DUMMIES

"Modern art is admittedly rash, confusing, prone to making one suspect that it's all a joke, annoying at times and forever puzzling as to meaning and significance. Yet much of it possesses a power and an elegance equal to the greatest early movements and styles in Western art."

10. Author: Arthur Clarke

Work: BEYOND GRAVITY

"Should permanent settlements be...[on the moon and Mars], children born [there] may never be able to risk visiting the home planet. In...centuries to come we may see...gravitational segregation, as our species divides into various tribes, adapted to zero, fractional, and one gravity."

LOGIC PROBLEM 1

The last order wasn't placed by Woo (clue 3), Nye (clue 4), Barr (clue 7), or Ito (clue 8), so it was placed by Perry. By clue 2, Mary was fourth. Perry didn't request the shirt (clue 2), skirt (clue 5), dress (clue 6), or tank top (clue 7); she ordered the pants. Since Perry isn't Dina (clue 1), Teri (clue 4), or Amy (clue 7), she's Rachel. Rachel didn't request blue (clue 2), green (clue 3), lavender (clue 4), or pink (clue 7), so she asked for a red item. The first item ordered wasn't blue (clue 2), green (clue 3), or lavender (clue 4); it was pink. Since Mary didn't order blue (clue 2) or green (clue 3), she ordered lavender. By clue 4, Nye placed the third order. Mary isn't Woo (clue 3) or Ito (clue 6), so she's Barr. Mary didn't request the shirt (clue 2), dress (clue 6), or tank top (clue 7); she ordered the skirt. By clue 3, Woo placed the second order and green was the third color request. By elimination, Ito placed the first order and blue was the second color request. Dina is Woo (clue 1). By clue 2, the shirt was ordered first. Since Teri isn't Nye (clue 4), she's Ito, and by elimination, Amy is Nye. By clue 7, Amy didn't order the tank top, so she ordered the dress, and by elimination, Dina ordered the tank top. In summary:

Amy Nye, dress, green, third
Dina Woo, tank top, blue, second
Mary Barr, skirt, lavender, fourth
Rachel Perry, pants, red, fifth
Teri Ito, shirt, pink, first

LOGIC PROBLEM 2

By clue 7, four of the girls went racing the day before sky diving. Since Sheila didn't go sky diving after racing (clue 2), she went racing on Friday and sky diving on Monday. The stunt school wasn't attended on Friday by Renee or Tasha (clue 3) or Kylie (clue 6), so Fiona went Friday. Fiona didn't spend Thursday spelunking (clue 1), mountain climbing (clue 4), or racing (clue 7); she went sky diving on Thursday and racing on Wednesday. By clue 1, Fiona went spelunking on Monday and mountain climbing on Tuesday. The girl who went to stunt school on Thursday wasn't Tasha or Renee (clue 3) or Kylie (clue 6), so Sheila went on Thursday. By clue 3, Tasha went to stunt school on Tuesday and Renee on Wednesday. By elimination, Kylie went on Monday. By clue 7, Tasha didn't go racing on Monday, so she went mountain climbing, and Renee went racing on Monday and sky diving on Tuesday. Also by clue 7, Kylie went racing on Tuesday and sky diving on Wednesday, and Tasha went racing on Thursday and sky diving on Friday. By elimination, Sheila went spelunking on Tuesday and mountain climbing on Wednesday, and Tasha went spelunking on Wednesday. Since Renee didn't go spelunking on Friday (clue 5), Kylie did, and Renee went on Thursday. By elimination, Kylie went mountain climbing on Thursday and Renee went mountain climbing on Friday. In summary, from Monday through Friday:

Fiona, spelunking, climbing, racing, sky diving, stunt school
Kylie, stunt school, racing, sky diving, climbing, spelunking
Renee, racing, sky diving, stunt school, spelunking, climbing
Sheila, sky diving, spelunking, climbing, stunt school, racing
Tasha, climbing, stunt school, spelunking, racing, sky diving

LOGIC PROBLEM 3

The two boys at the northernmost and southernmost points are both 15 years old and the two in the center are both 13 (clue 6). By clue 4, Ted and the Warner boy were in two of the three southern points and met at 11 a.m. Warner isn't 13 or 15 (clue 2), so he's 14, and Ed is 13. By elimination, Warner was at the next-to-southernmost point. By clue 5, the Bloom boy is 14. He, then, was in the second-to-northernmost point. Since Ted and Warner didn't meet at 10 (clue 4), they are not one of the three pairs in clue 1. Ted, then, is the 13-year-old at the point just north of Warner, and Ed is the other 13-year-old at the northernmost point and met Bloom at 10 (clue 1). Also by clue 1, the Nelson boy is Ted, Phil is Warner, and the southernmost boy is Porter. Sam is not Bloom (clue 5), so he is Porter. Since Evans didn't see Sam until noon (clue 3) and Ed and Ted met Phil and Sam at 11 (clue 4), John is Evans. By elimination, Ed is Calder and Bloom is Mark. In summary, in order from the northernmost point to southernmost:

John Evans, 15
Mark Bloom, 14
Ed Calder, 13
Ted Nelson, 13
Phil Warner, 14
Sam Porter, 15

LOGIC PROBLEM 4

By the introduction, each student had a different SAT score. Since the lowest score was 1400 (clue 8), the highest was 1500 (clue 4). By clue 2, Marie isn't going to Balister, so Lynn is. The highest SAT scorer isn't Steven or Joseph (clue 1), Lynn (clue 2), or Marie (clue 5); Daniel scored the highest. Since the lowest scorer is male (clue 8) and isn't Steven (clue 1), he is Joseph. By clue 8, Joseph is the yearbook editor. The student going to Carmen is male (clue 5) and isn't Steven or Joseph (clue 9), so he's Daniel. Since Marie scored higher than Lynn (clue 2), she scored 1490 (clue 5). By clue 2, Lynn scored 1460. By clue 7, another student ranked fourth and scored 1430. By elimination, he is Steven. Steven isn't attending Erkin (clue 7), so he's going to Datin and Joseph is going to Erkin (clue 9). By elimination, Marie is going to Amster. Steven isn't the soccer captain (clue 1), band captain (clue 3), or student council president (clue 9); he's on the debate team. By clue 6, Marie is the student council president. Joseph didn't rank fifth (clue 8), and neither did Marie nor Lynn (clue 2). Daniel, then, ranked fifth. Since the band captain ranked two places higher than Steven (clue 3), Lynn is the band captain, and she ranked second. By elimi-

nation, Daniel is the soccer captain. Marie ranked third (clue 2). By elimination, Joseph ranked first. In summary:

Daniel, soccer, Carmen, 1500, fifth
Joseph, yearbook, Erkin, 1400, first
Lynn, band, Balister, 1460, second
Marie, student council, Amster, 1490, third
Steven, debate, Datin, 1430, fourth

LOGIC PROBLEM 5

Each child decorated all of his or her cupcakes with the same two of four toppings (introduction) and no two selected the same combination of toppings (clue 1). Since no child chose the sprinkles and strawberry jam combo (clue 5), the five combos are chocolate-peanut butter, chocolate-sprinkles, chocolate-strawberry, peanut butter-sprinkles, and peanut butter-strawberry. The three girls are Dill (introduction), Upshaw (clue 3), and Redd, who decorated one cupcake (clue 7). Also by clue 7, Redd used peanut butter, but not sprinkles. Redd, then, is Ann and the Dill girl used peanut butter and sprinkles (clue 3). By clue 4, the Flowers boy used peanut butter. By elimination, the other boy is Down. Down used strawberry (clue 4). By elimination, his second topping was chocolate. Since a dozen cupcakes were baked and two children decorated the same number (introduction), the two possibilities for number of cupcakes decorated by the five children are 1-1-2-3-5 or 1-2-2-3-4. By clue 2, the two children who decorated the same amount are a boy and girl and they used all four toppings between them. This boy isn't Ed (clue 6), so he is Sam. Also by clue 6, Ed's two toppings were chocolate and peanut butter. By elimination, Ed is Flowers and Sam is Down. Since the Redd girl used peanut butter (clue 7), her second topping was strawberry. She, then, isn't the girl who decorated the same amount as another boy (clue 2). By elimination, those two didn't decorate just one cupcake each, and the dozen cupcakes were divided up 1-2-2-3-4 to decorate. Julia decorated four cupcakes (clue 5). If she were Dill, Ann would be Upshaw and would have used sprinkles and chocolate. This, however, contradicts clue 2. Therefore, Julia is Upshaw and she used sprinkles and chocolate. Sam Down and Mary Dill, then, were the two who decorated two cupcakes each (clue 2). By elimination, Ed Flowers decorated three cupcakes, and Ann Redd used peanut butter and strawberry to decorate one cupcake. In summary:

Ann Redd, peanut butter-strawberry jam, one
Ed Flowers, chocolate-peanut butter, three
Julia Upshaw, chocolate-sprinkles, four
Mary Dill, peanut butter-sprinkles, two
Sam Down, chocolate-strawberry jam, two
